

You are on the edge of discovery of a **Miracle Water**. Many people throughout the world use this water every day and are benefiting from its amazing properties with their families and friends. First discovered by Russian scientists in 1940s and later perfected by Japanese & Korean companies, this water now can be prepared in any household by using a device called Water Ionizer.

Water Ionizer employs technology of electrolysis applied to a regular tap water to produce two kinds of water : **Alkaline Ionized Water** and **Acidic Ionized Water** - each having it's own unique properties and [benefits](#).

NCI™ has a goal to bring the very best of water ionization technologies into every household in the United States. We provide extensive information on our web site along with [articles](#) written by doctors, scientists and researchers in this field.

We have a [video presentation](#) that will help you to get **unique knowledge** on properties of ionized water and water in general. You will see interviews with scientists and doctors. Also many people will share their amazing results from using this water.

We invite you to [visit our showroom](#) and we will be happy to answer any of your questions. Please call us **248.648.1466** to schedule your visit.

Thank you for your desire to enrich your life, we will do our best to help you!

Sincerely,
NCI™ Team.
