

Strong Acidic Water can be used as a non-chemical solution for disinfection food, dishes, floors, restrooms, game rooms, toys and other. It is especially beneficial to use in environment with kids who are allergic to cleaning chemicals.

Strong Alkaline Water can extract pesticides and other chemicals from food when soaked for 10-15 minutes. And food processed this way is staying fresh longer.

Drinking Alkaline Water helps boost immunity system and normalizes digestion. A glass of Alkaline Water is equivalent in amount of antioxidants to a freshly squeezed orange juice while having zero calories.
