

*Prof. Watanabe Ifao. Watanabe Hospital, Japan*

Ionized water improves body constituents and ensures effective healing to many illnesses. The uses of ionized water in gynecological patients have proved to be very effective. The main reason for its effectiveness is that this water can neutralize toxins. When given ionized to pre-eclamptic toxemia cases, the results are very significant. During my long years of servicing the pre-eclamptic toxemia cases, I found that the women with pre-eclamptic toxemia who consumed ionized water tend to deliver healthier babies with stronger muscles. A survey report carried out on babies in this group has intelligence above average.
