"...acid wastes literally attack the joints, tissues, muscles, organs and glands causing minor to major dysfunction. If they attack the joints, you might develop arthritis. If they attack the muscles, you could possibly end up with myofibrosis (aching muscles). If they attack the organs and glands, a myriad of illness could occur."

"I have administered over 5000 gallons of this water for about every health situation imaginable. I feel that restructured alkaline water can benefit everyone."
